

Senseon Plus Audit Trail Software

Where Robust Security Meets Actionable Data

Senseon Plus's cloud-based audit trail software provides actionable insights that increase productivity, streamline investigations in the event of a theft, and ensure compliance in regulated environments.

Key Benefits

Actionable Insights

The system provides data businesses can act on, including revealing cabinet access information. These details and other information generated by Senseon Plus can then be used to make sound decisions in a variety of business environments.

Streamlined Investigations

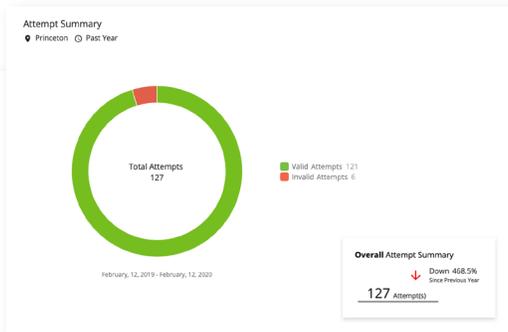

Thanks to Senseon Plus, both asset protection personnel and security professionals can streamline investigations if theft occurs. The system facilitates the process of correlating data with surveillance footage after a security breach.

Readily Available Compliance Data

You can use information collected by Senseon Plus reports in ensuring regulatory compliance in healthcare, finance, and retail dispensary environments.

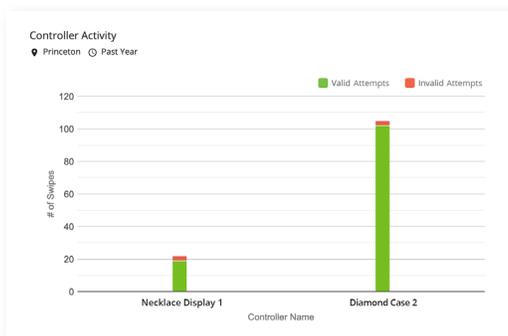

Features

The Senseon Plus software dashboard can be customized to show the insights most relevant to your business.

Attempt Summary and Trends

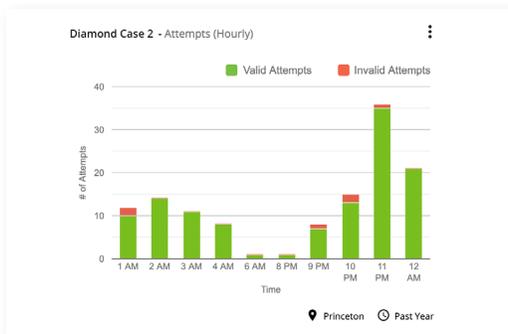

You can view the number of access attempts that take place over time within a specific location and whether or not the attempts were successful.

Cabinet Open Times and Controller Activity

These reports reveal how long your cabinets have been left open, as well as detail how those cabinets are being accessed within a time period.

This information can be critical because it provides insights into how your inventory and resources are being accessed.

Overall Cabinet Activity

If employees regularly access cabinet and furniture locks throughout the day, the data from Senseon Plus can give you insight into employee performance.

This data allows you to leverage your access control system to monitor productivity, review the impact of a policy change, and more effectively train your staff.

Are you ready to take control?

Let's talk about your security needs. Our expert team will point you in the right direction.
